

Minutes of the meeting:

1. Project homepage – Adil will be the webpage master.
We need to send Adil the following:
 - The logo in png-format. Viewing the page.
 - Information/introductions about the schools – only Turkey has put theirs in. All the others need to send Adil the introductions.
 - The videos that were made for the meeting in Reykjavík, if we haven't already sent them.
 - Access to the webpage – Adil will take care of uploading our products to the page.
 - The project description so he can upload it to the page. Bertha will send it.
 - Evaluations: Adil has the evaluation for Reykjavík, has to be uploaded. Each meeting will be evaluated after each mobility.
 - Projects from the last meeting: activities in Iceland to be uploaded here too, if they are different from the introduction of the project.
 - Pictures and something more from the lectures in Iceland. All partners to send some photos / videos.

2. Make deadlines after each meeting when to send the products to Adil.
 - Brochures (filmed if not electronic)
 - Videos from the roleplaying (Adil)
 - Where do we come from: Send the posters or PP to Adil
 - Deadline: 18th of March

3. eTwinning – Adil and Bertha will start an eTwinning platform and then the others will join. Adil will have a one-hour introduction to eTwinning in Slovenia.

eTwinning is:
 - Online school partnership, the Erasmus plus wants us to do it
 - Project results for a larger audience
 - A little like Facebook, a platform to show our work

We are now using 3 platforms, Facebook, webpage and eTwinning for disseminations. Students can also chat on eTwinning.

4. Evaluation.

- Germany will do their own. One for teachers and one for students.
-
- We have to be mindful to do all the things we said we were going to do in the application.
-
- Discussion about if we can fulfill all the goals in the application.
- - We could translate some of the brochures and publish in our countries. That would be a Multi-lingual activity.
 - Workshop in Portugal on new social media platforms.
 - We have a valid reason not to do some of the activities in the application. If we have to, we can justify it in the final report and Erasmus will accept it.
 - eTwinning for students to get in touch with each other on a safe platform “the can” as it says in the application. We will put it in the program for Finland. => e-twinning workshop for students, they will make a forum and we will upload their discussions there.
- Iceland is keeping a sway-diary (Office 365) of all the mobilities. Finland is using Joomla for a similar purpose. Slovenia has a padlet-page where they put up all their stuff, access through the schools homepage. They also have a log in google docs.

5. What has been achieved so far?

- Everybody pleased with the activities.
- We would like to have the material on our webpage.
 - We could translate the material. That would fulfill our goals for using other languages than English (see application).
 - Germany will send to Adil soon so that we can be done with the translations by the 18th of March.
- Discussion about the students communicating on-line between meetings. They do it on their own platforms – so that will be what we report back

6. The meeting in Slovenia.

- Discussion about the projects we bring with us.
 - Research of tourism in our city – the role of immigrants in tourism
 - Talk to newcomers, young visitors and refugees
 - Further information from Slovenia (see description of activities to prepare sent by Majda).
 - Mindful about the sound of the interviews.

7. Other matters.

- Discussion about the final workshop in Hamburg. The ABC's of how to welcome visitors and newcomers.
 - Two groups, tourism and migration.
 - Preparations of presentations (type of presentation is free).
- Discussion about extra curricular activity.
